

Below is a copy of a letter being sent to Governor Schwarzenegger from prisoners by the droves throughout California's prison system.

June 2009

Arnold Schwarzenegger
Governor's Office
State Capitol Building
Sacramento, CA 95814

Governor Arnold Schwarzenegger:

I pray as you read my plea for help from this insane prison that is commonly known as a rehabilitation facility, you take some common sense action to reduce the population here and also save the state millions of dollars being spent to inadequately house men and women with no so-called crime against the State.

I presume you already are aware of the many laws we have that put fear in the hearts of our so-called benevolent country. These laws do nothing to protect our society. Instead they have made our country a disgrace to the world. We live in a police state that can be reversed by your opening the prison doors to at least 90 percent of the prisoners who are there because of unjust laws. Punishment has never been an antidote to crime. We must show our fellowmen a better way to live by example.

God's laws have always been burden lifters and a light for the people to follow. I pray you take some drastic steps to make our country free of all prisons. Are we more evil than other countries who have few if any prisons? Or are we an evil country gone mad with power and greed and every manner of evil that preys on the helpless and the downtrodden??

We will all have our turn to stand before the Great Judge and answer to Him on how we treated the least of the brethren. The golden rule has become tarnished and we have forsaken the living God. It is up to you to be an example for the nation. All eyes are on California. Unless we change our ways, we deserve to become worse off than the third world countries.

Respectfully yours,
