

Blinded

*For I'm a product of society, throughout my life I was taught,
The authority and government for all my life I fought,
Never to win this fight, for they got the upper hand,
Doing time in prison, my life destroyed, I just can't understand.*

*For I was blinded by sin, living by the world's way,
To never amount to anything, everyone would say,
I can't take it, for there's got to be a way out of this life,
To rid my life and my soul from all this agony and strife.*

*Then one day the Lord opened my eyes, for I can see,
And showed me a glimpse of the future of what I could be,
A man of great faith with a heart of strength within,
Overcoming many trials and leaving behind all my faults and sin.*

*For the Lord has answered in my time of need, put my soul at peace,
My faith and my love will grow in the Lord to never cease,
For He put the world under my feet and set me on high,
To never go through life alone and to never wonder why.*

*I am a product of our Lord for society is a product of grief,
The government is corruption but our Lord's word is our soul's relief,
For in time your faith will be strengthened by all this life's and world's tests,
Walk in the Lord's will and you will forever live a life at its best.*
