Southern California Dreamin'

January 1988

Directions

1. For machine piecing, trace all pattern pieces on the wrong side of fabrics and cut out. Seam allowances are included on pattern pieces. For hand piecing, make templates using dashed lines on pattern pieces and trace templates on wrong side of fabrics. Add 1/4" seam allowances all around and cut out.
2. Trace snowman's nose, bird, bird's beak and bird's hat on right side of fabric. Eye 1/4" seam allowances all around and cut out.
3. Piece block following the piecing diagram below. Form rows and then join the rows. In Row 1 piece B and C together, then add A on each side. In Row 7, piece O-P-P-P-O together, add N on top and sew an M piece to each side of that unit.
4. Applique in the following order: bird's beak, bird, bird's hat, and snowman's nose.
5. Embroider snowman's eyebrows and mouth with a stem stitch using two strands of floss. Work bird's cheek and wing with a stem stitch using one strand. Create bird's eye with a French knot using two strands of floss. Sew buttons for eyes and on vest.
6. Trace pattern for arms onto block. Using three strands of floss, outline arms with a stem stitch, and fill in the shape with a satin stitch

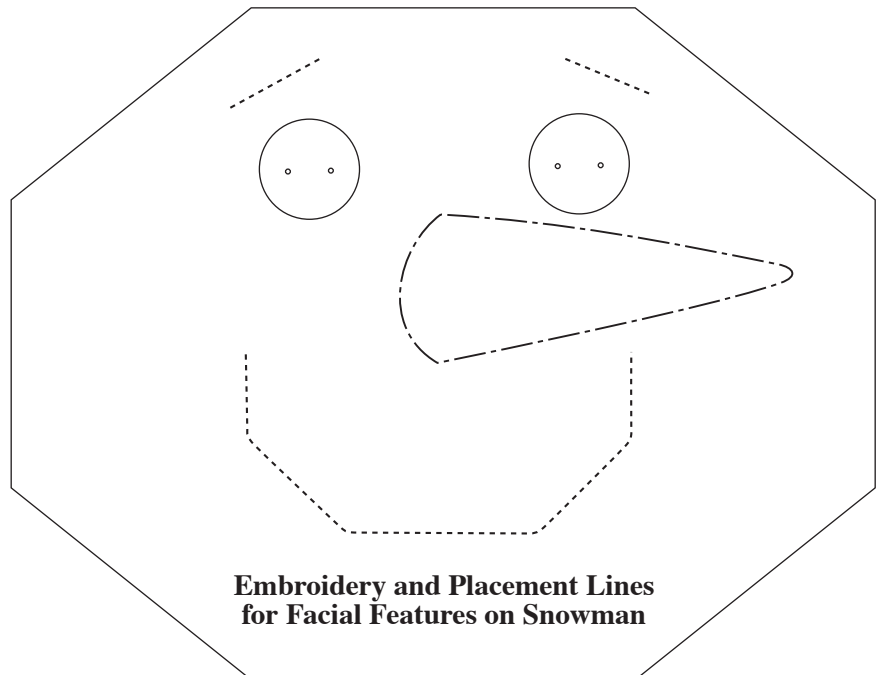

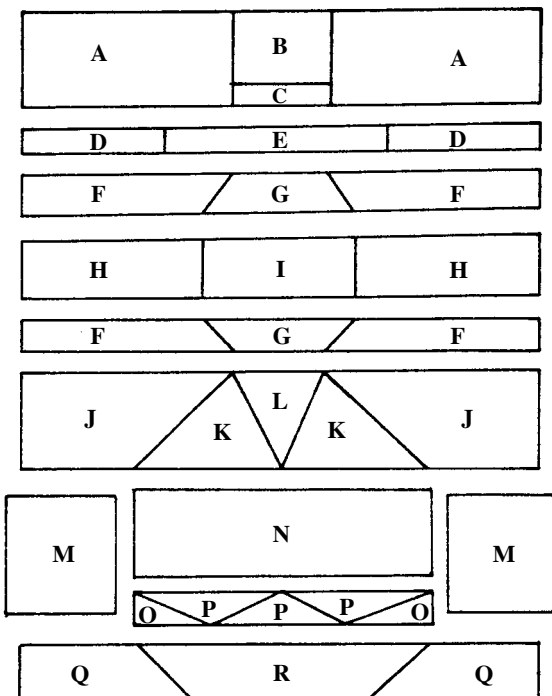

14" Finished Square

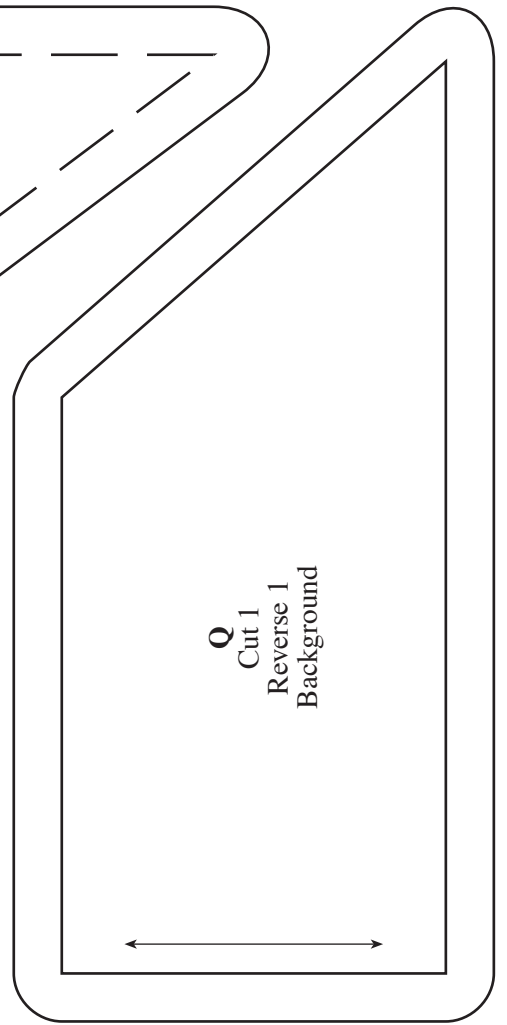

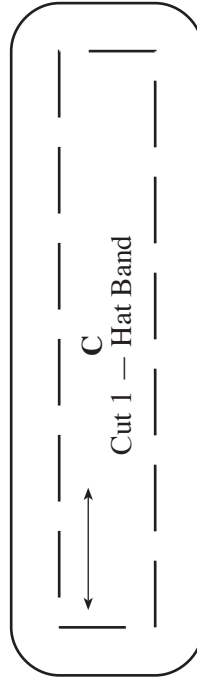

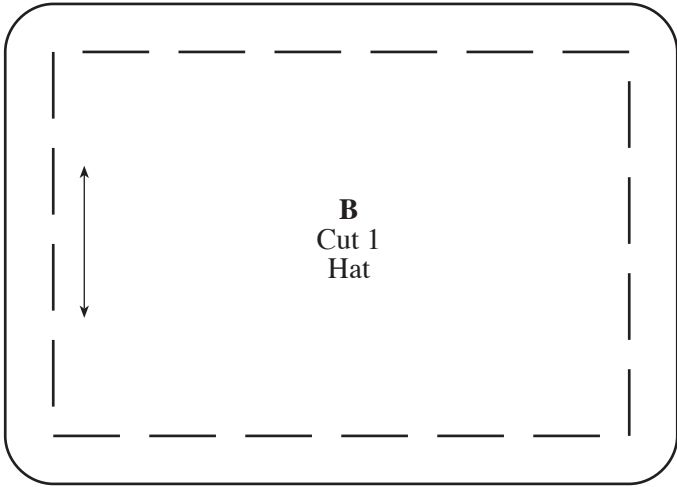

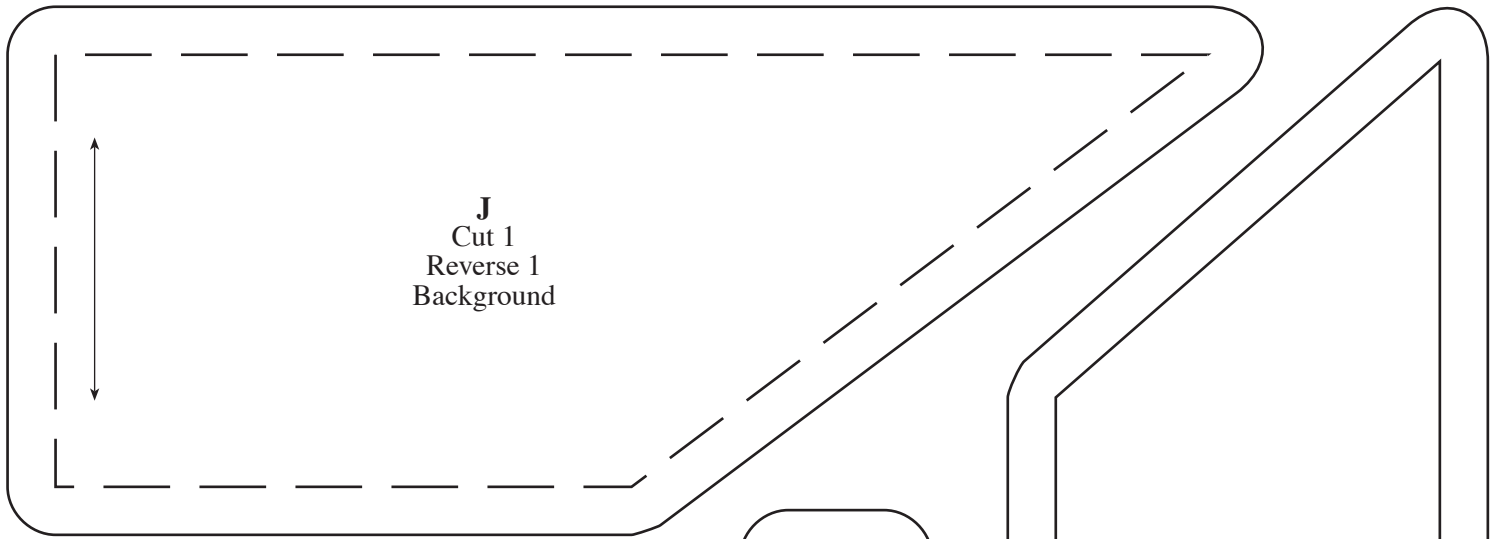

Supplies
