

Piecemakers Class Schedule

January — March 2019

My dear friends,

Are you suffering from the spiritual blahs??? Has life lost all its motivation and meaning? Are you weary of well doing??? Can't cope, can't cope, can't cope??? Well my friend, you are numbered among the majority in America. Time is running out. The system (world) as we know it is passing away. The American nation as a whole is finding out that all that capitalism has to offer does not satisfy. We are finding out that just meeting Jesus and doing many wonderful things in His name does not satisfy. If either of these two things satisfies you, you are either living in unreality or are double dead with the lust of the world.

False anointings are here — the world is in collision with the birth of a new world — and people are fainting not knowing how to cope. My dear little children, Father is drawing us unto a new age called "The Kingdom of God". Nothing of the old will make it into the next age.

*Dear friends, it is time to rejoice and look up, for our redemption draweth nigh. For a new covenant He has made which makes the old obsolete and growing old, ready to vanish away. This is the time to call on the Lord in this, our day of trouble. It is a painful thing to have the laws of the new creation written on our hearts. It is a frightful thing to have to admit our problems are all **OUR PROBLEMS**. No more scapegoats for any of us. We will never get healed if we still have scapegoats (someone to blame for our faults). There is a new move of God stirring the waters. It is a move of judgment, a move of making us rid ourselves of all our idols, a move that will touch every life. It is a move likened to the days of Noah when all flesh and blood was destroyed, a move with God Himself visiting us looking for a habitation in which to live. And He will find a house in which to live. There is no one who can clean house like God Himself. That house is our heart. So if you have come to the end of your rope, so to speak, blessed are you. Now ask God to guide you through death into His peaceful Kingdom. I promise, you make your abode in His house and He will make His abode in your heart.*

So my dear sojourner, expect communities to spring up like blades of grass as God gathers us to Him and to one another. How can we admonish, exhort, and edify one another if we live for ourselves only? Sharing all we have, even our lives, is a small price to pay for the sweet fellowship of living with one another and sharing Christ's life.

His servant and yours,

Marie
Marie Kolasinski
