

## The Birth of a Nation

Good morning, citizens of America. Today will be the beginning of America going back to her roots — back to the God who birthed her. I have a revolutionary word from God to help us start our journey. It will take some revolutionary action to accomplish what needs to be done. God has promised to be with us as we shake off the shackles that bind us. This move of God must come as we become like minded and move with one accord, or perhaps a depression as a second happening if we refuse the first will bring America back to her senses. America has become a nation not of mercy and justice but one that terrorizes not only its citizens but also the citizens of other countries.

God has heard the cry of the American people, the men, women and children of Iraq, and the prisoners in Guantanamo. Our government is responsible for more heartache to the working class of America, more sickness because of fear, more loss of jobs, homes, and businesses than should ever happen to a dictatorial country, say nothing of one that professes to be a Christian country.

I use as the foundation to what I have to tell you these two documents: The Bible and the Declaration of Independence.

From the Bible I take this scripture. Isaiah 9:6 — “For unto us a child is born, unto us a son is given and the governments shall be upon His shoulders and His name shall be called **wonderful counselor, the mighty God, the everlasting Father, the Prince of peace**. Of the increase of His government and peace there shall be no end upon His Kingdom to order it and to establish it with judgment and with justice from henceforth even forever. The zeal of the Lord of hosts shall perform this.”

As we, the American citizens humble ourselves and seek His face and turn from our wicked ways, His governments will once more be established in the heavens and they will rule over man guiding and protecting us; therefore we will have no need for a government. We

have the Ten Commandments of the Old Testament telling us what not to do and are fulfilled in the New Testament telling us how to be, how to relate to one another making us human beings rather than animals.

1. Seek first the kingdom of God **and His righteousness** and all else will be added unto you.
2. Do unto others as you would want them to do unto you.
3. Love one another without hypocrisy.
4. Abhor that which is evil and cleave to that which is good.
5. Do not set your mind on high things but associate with the humble.
6. Repay to no man evil for evil.
7. If it be possible, live peaceably with all men.
8. Dearly beloved, avenge not yourselves but rather give place unto wrath; for it is written, “Vengeance is mine, I will repay, saith the Lord.”
9. Be not slothful in business; fervent in spirit, serving the Lord.
10. Distribute to the needs of the saints, given to hospitality.

As we turn back to God the new covenant with His people is this: He will write His laws upon our hearts but as long as we have the government as our god we will live worse than the animal world.

The next document I will use as my foundation is another one on which our country was founded, “The Declaration of Independence”.

“We hold these truths to be self-evidence, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That

to secure these rights governments are instituted among men deriving their just powers from the consent of the governed. Whenever any government becomes destructive to these ends it is the right of the people, it is their duty to throw off such government.”

Let me also quote from Abraham Lincoln. “I often think that if ever this country is destroyed it will be because of people wanting jobs with government; people wanting to live without work, a terrible fault.”

Now saying all that, we Americans have come to a place in our history where we either destroy our government or perish. Let me give you an analogy of our predicament.

In the back yard of one of Piecemakers’ homes is a family of eucalyptus trees that have grown to perhaps 40 feet. These beautiful trees provide a home for the egrets and other birds and animals. One of these trees began to die. We called a tree doctor who gave the tree medicine, paid the doctor 600 dollars and the tree continued to die. The egrets left that tree and also the surrounding trees. One day we noticed a big sucker feeding off the tree. Josh got a saw and went to work sawing off the sucker that was sapping the life blood from the tree. It wasn’t long and the tree started getting healthy, the leaves returned and so did the egrets. If we had not cut off the sucker both the tree and the sucker would have died.

Folks, that is the predicament we are faced with today. We either cut off our government from the working sector of America or we both die. If we cut off our government employees and help them to become part of the mainstream of America, giving to the community instead of living off the substance of the working class, we will both live.

We, the working class and the tax payer are as guilty of our condition as the government takers for we go to the polls, hire our henchmen and then pay them to terrorize, torment, lie, steal and cheat. This must come to an end.

There will be no cowards in this move of God. The many will not benefit from the few. This is an edict that is going throughout the land and each person is responsible for his answering to God for his actions. From this day forth no taxes will be paid to support our government. To help government employees rehabilitate to the working class each will receive a severance pay of 20,000 dollars

from the janitor to the head gestapo including our president. There will be no pensions. Take your 20,000 dollars before the money runs out. There are cars to sell, buildings to sell and equipment to sell to help with the severance money. Let us be kinder to our brethren losing their jobs than the government has been to the many they have forced to become unemployed.

We must have new ways of thinking, new ways of relating — relating with no jealousies or covetousness. We must see greed for money not be our motivation for working. We must see God change our caustic tongue into the truthful words of life. We must live the life that is more blessed to give than to receive. We must comfort those that mourn. We must open wide the prison doors and set the prisoners free. This moment I command the prisoners at Guantanamo Bay be set free. Perhaps it would be a good idea to put the real terrorists of our country in there without a chance of getting out. But vengeance belongs to God and each person will ultimately have to answer to Him for his deeds.

I expect no violence to happen with this revolutionary move of God for the minute the sucker is taken from the tree peace will begin to reign. If Gandhi could rid India of the vulture, England, surely we can with no violence rid ourselves of the vulture called the American government.

These are some of the drastic measures it will take to rid ourselves of the destructive cancer eating up our substance. We do not need Orange County so from this day forth we will not pay one more cent of property taxes. Take that money, my friends and do the improvements on your home you have wanted to do but could not afford to. Rackauckas, I suggest you take your well laid plans of mice and men, with the rest of your vipers’ nest and go to another county to live.

We do not need a DMV. Their written test is a disgrace to our mentality. Let me go further. We do not need to register our automobiles. My dad taught me how to drive and it sustained me all these years. The police state at the airports are a disgrace to our country. These guards are not needed. 9/11 was a warning sent by God. The destruction of New Orleans was a warning sent by God.... warnings telling us to repent from our ways or our punishment would be likened to the destruction of Sodom and Gomorrah. Our paranoid President took this opportunity to increase our government, make the

world paranoid and then act like the savior of the world by his power and might.

Shame on the judges in our courts who are far from honorable. They are all released into the mainstream of America as God our Judge is taking over. Shame on the Costa Mesa police who have a love for the truth but are too cowardly to stand for that which is right and just. You have abused the power and authority given to you by giving power to cowards that can take away our livelihood with the warrant signed by unscrupulous judges. Judges who could give a damn who or what the warrant is for.

The height of arrogance is the person who has security guards to protect them. Moses had no security guard, Jesus had no security guard and I have no security guard. The arrogant Kennedy's had security guards, Reagan had security guards, the phony pious pope had security guards. All were shot. One life on earth is not more valuable than another. Let us not put our trust in man whose breath is in his nostrils.

As we see the people set free from the burdensome permits, taxes and licenses we will see free enterprise flourish. We will see our factories once again alive and well. We will see new ideas for small business. Businesses that have left our shores because of the

heavy handed government will return and our great employment will be with the working class and not with the life sucking government. And with God's laws covering us we will see our mental peace returned to us and the use of drugs annihilated. We will see the broken relationships being restored, the family unit once again established with peace and caring for one another. Old age homes will become fewer as communities once again are formed and the homes for the aged will not be hounded by government harassment. With no laws to break there will be few if any criminals. Seeing as our biggest criminals were rulers in high places ruling over us, we will be freed of these criminals. Just as the egret returned to the eucalyptus tree, so shall life come back to a dying society and there will be new music such has never been heard for how can we sing a new song when we are imprisoned in Babylon?

Let us all be brave and move as one body. If God is for us who can be against us? Let us be known as the generation who were brave enough to bring our nation back to our roots and back to the God who founded our country. We have one short life to live. Let us let that life be used for the good of the whole.

And may the Christ whose Father founded our country give you His peace.

Marie Kolasinski
