Illegal Immigrants

2 Thessalonians 3:10 — “That if any would not work, neither should he eat.”

Considering that the above scripture is the criteria for the citizens of the age we are entering into let us consider who would be the illegal immigrants not welcome in our country.

All government employees would be the first on the list. There is not one who contributes to the welfare or life giving blood of a healthy society. They are predators and Paul the apostle warned against them, calling them busybodies. The work referred to in the scripture is that energy spent to contribute to the life of the system which in turn protects and takes care of those who give into it. Paul likened it to the physical body all working together for the good of the whole.

Now when the body has an appendage that serves no purpose but becomes a detriment to the body, if not severed from the body, the body dies. And the appendage also dies.

The people we term as illegal immigrants, if working and contributing to the community are not illegal immigrants but the very substance that makes for a society. Our country was founded on the likes of them. Start with Washington and cut off the head and the rest will topple.

Solution is very simple — cut out welfare and stop paying taxes to support the real illegal immigrants — our blood sucking government. We either move and obliterate the sickness or the sickness will obliterate us.
