“Ways to Change Public Policy”

Sent as a Letter to the Editor — The Orange County Register
I’m reading “Ways to change public policy in order to create freer world” by Doctors Bock, Greenhut and Landsbaum — I call them doctors because they all treat the symptoms and not the cause.

Well, the good and dreadful news is this. The Cause — of all things is about to make His appearance and when He does, our worries will just begin.

We will worry about our own dreadful relationship to the One who is bringing us back to our roots, bringing us back to a government by the people where we, yes, you and I, are responsible for all the sick symptoms. We are the sickos so we have a sick government over us. Wake up America. You and I are the sickos loving a sick government to blame for our irresponsibilities.

Marie
