My dear brothers and sisters in Christ,

Because the load of letter writing has gotten so great, I am going to send a newsletter and what I feel God is saying to the church each week and we will send that to you.

First let me tell you as the fire gets hotter and all the game playing with God is being exposed so we become real (honest people with no iniquity); just know that God is doing all this to set us free. We will either unite or die. We will either humble ourselves or perish. This may seem like a scary letter to send. However I can only write and tell you, or I should say warn you to get your heart prepared as God's holiness is wrath only to those who are arrogant and deceitful.

We recently had two x-inmates leave who had come to us destitute needing help and we gave all we had. Clothes, comfy home, paid their bills owed the government, got their teeth fixed, one to the tune of \$6000 and suddenly because we did not conform to their way of thinking they leave and go back to their vomit. These are educated white men who have tasted the horrors of jail.

Let me tell all of you. The horrors of meeting God will make the cruelest of deputies look like angels. He is a consuming fire and we have only one choice and that is to humble our hearts today as we are about to see a wave of God's glory hit our country and let us all pray we hit the deck instead of pleading our case before Him.

By the way, "If we do not work, we do not eat," will be the edict covering this country as God takes over. Money supporting the prisons has run out. It will be interesting to see what happens as the prisoners are set free and you all have to work for a living. We will either all humble ourselves and pull together or we as a nation will perish.

Marie
